

WE-R1

Together as 1, our mission is to curate and unite a community of passionate young athletes and families who share the same love for the game. We aim for our community's culture to be loyal and supportive to one another. Our end goal is to prepare and direct our student athletes towards a life dedicated to excellence.

Upon building the community, we will enrich and educate our young athletes on the court to prepare them for the next level, but more importantly, we will share and teach life-long lessons that will extend beyond the basketball court.

Our staff desires to inspire a generation of players to surpass good and become great.

To help our student athletes honor, enjoy, and to trust the process that it takes to reach their potential.

Prepare student athletes for the next level of basketball/education.

Teach life lessons through the game of basketball.

Curate a community of passionate basketball players and families who want to help propel their child into a positive contributing member of society.
